PRESANS went live on the 21st of September

We are very excited to announce that PRESANS Network went live on the 21st of September. PRESANS is beta, which means that

- This version is lighter than expected. Functionalities are coming up in the next few weeks.
- There might be a few bugs, in which case, you are more than welcome to let us know.
- You should feel free to ask for other features or send us critics, suggestions etc.

Experts Get Visibility

You can use PRESANS Network to get extra cross-field visibility. Once you have logged into your account, you can publish news for example on your research, your latest scientific publication, your latest patent etc. This news will appear on the public area of PRESANS. Top news are displayed right on the homepage of PRESANS and will be summarized in our monthly newsletter, sent to thousands of other Experts and Industrialists.

Your profile should be filled out for upcoming Challenges

We will start posting technological Challenges soon and we will target challenges fitting best with what you know; this is one of the reasons you should fill out your profile. Note that if you had preregistered (before the 21st of September), you should make sure your profile was properly exported.

Why you should invite your colleagues to PRESANS

To take advantage of upcoming features of PRESANS Network, you should connect with your colleagues: we will allow you to send "private" non-intrusive messages to your colleagues and to your colleagues' contacts. You can use this feature to advertise a vacant position,

IN THIS ISSUE

- PRESANS went live
- Experts Get Visibility
- Fill out tou profile
- Why you should Invite your colleagues
- First Challenges on PRESANS
- Even Newton could be wrong!

OTHER NEWS

What is PRESANS?

PRESANS is a social market place with a real added value both for Experts and Industrialists. As an Expert, you will be able to benefit from a range of free services and to be rewarded to solve technological challenges. As an industrialist, you will get our scientific committee composed of senior scientific consultants to translate your needs and to broadcast them to our large and diverse Expert Network.

New technology for sale

The Technology Transfer Office of the Ecole Polytechnique is advertising a new technology on PRESANS Network: Biochips for Fluorescence and Localized Surface Resonance Combined Detection. [More...](#)

Featured Expert

Marc Baaden is a computational chemist and he has posted the first news on PRESANS!

Nicolas Hauviller is a Software Engineer who reported to us various bugs and sent us many suggestions. Thank you!

PRESANS ON SOCIAL NETWORKS

 Follow us on Twitter.

 Become a fan on Facebook.

SEND TO A FRIEND

Send this email to someone you

to look for a job or to look for cross-field assistance etc. This is a free service working only if you have connected with colleagues on PRESANS.

Even Newton could be wrong!

Behind this provocative title lies the seminal article of a series to be published on PRESANS. In this section of the web site, our staff and most importantly, Experts who have registered on PRESANS, can post articles, best practices or testimonies related to innovation, research, university-industry collaborations, crowdsourcing, etc. [More...](#)
